## OBJECTIVE AND INVESTMENT POLICY I

Independence et Expansion Europe Small ("IE Europe Small") is an actively managed fund which seeks capital growth over a three year time frame.

The Europe Sub-Fund's investment policy consists of buying shares in small or medium European companies listed on a regulated market in accordance with the Directive, with a market capitalisation strictly less than €10 billion (ten billion), and whose valuation is low despite their equity and/or their investment capital being more profitable than the market average, and in progressively selling them when they no longer meet these criteria.

The Fund may also purchase convertible bonds and warrants to acquire shares of such companies.

The Fund's investment policy incorporates extra-financial environmental, social, and quality of governance (ESG) criteria.

## COMMENTS I

The Europe Small fund has initiated two new investments in ALA (Italy) and Clinica Baviera (Spain). The former is a subcontractor specialising in logistics for civil and military aviation and the latter offers services in the field of ophthalmic medicine with leading positions in Spain.

## RISK / RETURN PROFILE

This indicator represents the annual historical volatility of the Fund over a 5-year period. In the absence of sufficient historical data, the risk indicator incorporates data simulated from a benchmark portfolio. Risk category 6 reflects a high potential gain and/or loss in the portfolio's value. This is achieved through investments in equities in small- or medium-sized companies on the European market. Historical data such as that used to calculate the synthetic indicator cannot be considered as a reliable indication of the Fund's future risk profile. The risk category associated with the Fund is not guaranteed and may change over time. The lowest risk category does not mean "risk free". Your initial investment is not guaranteed.
