I OBJECTIVE AND INVESTMENT POLICY I

The Independence et Expansion SICAV ("I&E") is an actively managed fund which seeks capital growth over a three year time frame.

The France Sub-Fund's investment policy consists of buying shares in French companies listed on a regulated market in accordance with the Directive, with a market capitalisation that is lower than or equal to the largest capitalisation in the CAC Mid & Small NR Index and whose valuation is low despite their equity and/or their investment capital being more profitable than the market average, and in progressively selling them when they no longer meet these criteria.

The Fund may also purchase convertible bonds and warrants to acquire shares of such companies, and 10% in European listed companies whose registered headquarters are not in France.

The Fund's investment policy incorporates extra-financial environmental, social, and

I COMMENTS I

In April, the fund added to Amundi, which had a good first quarter, and to Esso, which was badly valued and sold its Fos-sur-Mer refinery.

The fund added two new lines in shipping with D'Amico in Italy and Høegh Autoliner in Norway, and lightened its load on Verallia, Vallourec and Rheinmetall.

I STOCKS MARKET CAPITALIZATION

I RISK / RETURN PROFILE I

This indicator represents the annual historical volatility of the Fund over a 5-year period. In the absence of sufficient historical data, the risk indicator incorporates data simulated from a benchmark portfolio. Risk category 4 reflects a high potential gain and/or loss in the portfolio's value. This is achieved through investments in equities in small- or medium-sized companies on the European market. Historical data such as that used to calculate the synthetic indicator cannot be considered as a reliable indication of the Fund's future risk profile. The risk category associated with the Fund is not guaranteed and may change over time. The lowest risk category does not mean "risk free". Your initial investment is not guaranteed.
